

08-10 September 2019
Howard Smith Wharves
BRISBANE

OFFICIAL PROGRAM

SUNDAY 08 SEPTEMBER

SUNDAY WORKSHOP

Offloading Workshop with A/Prof Jaap van Netten
HSW: Howard's Hall West 2:00pm - 5:30pm

WELCOME EVENT

DFA 2019 Welcome for Full Conference Delegates
HSW The Rivershed - 5:45pm to 8:00pm

MONDAY 09 SEPTEMBER

7:30	8:30	Conference Registration and Trade Exhibition open
8:30	8:35	Acknowledgment of Country with Professor James Charles (HHW)
8:35	8:45	Official Conference Opening with ADS CEO Associate Professor Sof Andrikopoulos and DFA Chair Dr Pete Lazzarini (HHW)

THE ULCER Wound Assessment & Treatment (HHW)

8:45	9:05	Professor Fran Game (United Kingdom) New global wound guidelines: What should we be putting on foot ulcers now?
9:05	9:25	Professor Stephen Twigg (Australia) What are biomarkers telling us about foot ulcer management now and into the future?
9:25	9:45	Professor Rob Fitridge (Australia) The Global Vascular Guidelines for Chronic Limb-threatening Ischaemia and the IWGDF guidelines- what do they mean for vascular assessment in real world practice?
9:45	10:15	Professor Fran Game (United Kingdom) What will we be putting on foot ulcers in the near future?
10:15	10:30	Panel discussion with interactive Q&A

10:30 11:00 MORNING TEA & EXHIBITION (HHE)

WORKSHOPS	THE INFECTION (HHW)	THE PERFUSION (RSW)	THE ULCER (BH)	THE PRESSURE (RSE)
11:00 12:30	When is enough - enough! Join Professor Larry Lavery, Professor Eric Senneville, Dr Sarah Coghill and Dr Matt Malone for an interactive workshop focused on infection case studies and discussion.	Interpreting vascular investigations from a multi-disciplinary perspective. Join Professor Rob Fitridge and Dr Beatrice Kuang for an interactive workshop with case studies and discussion.	How would you manage that difficult wound? Join Professor Fran Game and Dr Pete Lazzarini for an interactive workshop with case studies and discussion.	How would you offload that? Join A/Professor Jaap van Netten and A/Professor Karl Heinz Schott for the latest in 3D scanning offloading technology, case studies and discussion.

12:30 13:30 LUNCH, POSTERS & EXHIBITION (HHE)

BREAKOUTS	ABSTRACT SESSION 1 (RSW)	ABSTRACT SESSION 2 (RSE)	WORKSHOP 13:30 - 14:15 (BH)
13:30 13:45	Professor Larry Lavery (1) University of Texas South Western Medical Centre	Damien Clark (7) Queensland University of Technology	SIPC Therapy Workshop with Margo Asimus
13:45 14:00	Saskia Schwarzer (2) South West Sydney Limb Preservation Research	Christopher Si (8) Royal Perth Hospital	WORKSHOP 14:30 - 15:00 (BH) APoDA Career Framework in High Risk Foot with Cindy Laird
14:00 14:15	Brian Martin (3) Nepean Hospital	Julia Zhu (9) National Healthcare Group Polyclinics Singapore	
14:15 14:30	Adriaan Erasmus (4) Liverpool Hospital High Risk Foot Service	Yuqi Zhang (11) Queensland University of Technology	
14:30 14:45	Peter Speck (5) Flinders University	Donna Angel/Christopher Si (10) Royal Perth Hospital	
14:45 15:00	Michael Radzieta (6) Western Sydney University	Professor Larry Lavery (12) University of Texas South Western Medical Centre	

15:00 15:30 AFTERNOON TEA & EXHIBITION (HHE)

THE PATIENT	Understanding patient behaviour and adherence (HHW)
15:30 15:50	Associate Professor Jaap van Netten (Netherlands) New global prevention guidelines: What should we be doing to help our patients prevent foot ulcers now?
15:50 16:10	Pam Chen (Australia) Simple communication is no mean "feet"
16:10 16:30	Associate Professor James Charles (Australia) How should we engage our Indigenous patients in diabetic foot care?
16:30 17:00	Associate Professor Jaap van Netten (Netherlands) How will we engage our diabetic foot patients to adhere in the near future?
17:00 17:15	Panel discussion with interactive Q&A

18:30 22:30 INTERACTIVE DINNER @ THE FANTAUZZO

08-10 September
Howard Smith Wharves
BRISBANE

OFFICIAL
PROGRAM

TUESDAY 10 SEPTEMBER

BREAKFAST WORKSHOP (RSW)

Life changing decisions in DFU management with Prof Fran Game, Mr Jeff Peters, Dr Jenny Prentice & Mr Emilio Galeo

BREAKFAST WORKSHOP (RSE)

T.I.M.E and complex case study management using PICO with Dr Matthew Malone & Saskia Schwarzer

EXHIBITION (HHE)

7:30 8:30 Registration and Trade Exhibition open

THE INFECTION Predicting and treating foot infections (HHW)

8:30 8:50 **Professor Eric Senneville (France)**
New global infection guidelines: How should we be medically treating foot infections now and into the future?

8:50 9:10 **Dr Sarah Coghill (Australia)**
What we need to know about antibiotic stewardship and diabetic foot infections?

9:10 9:30 **Dr Rob Commons (Australia)**
Will DINGO unlock diabetic foot infection management in Australasia?

9:30 10:00 **Professor Larry Lavery (USA)**
How should we be surgically treating foot infections now and into the future?

10:00 10:15 **Panel discussion with interactive Q&A**

10:15 10:45 MORNING TEA & EXHIBITION (HHE)

BREAKOUTS

ABSTRACT SESSION 3 (RSW)

ABSTRACT SESSION 4 (RSE)

WORKSHOP 10:45 - 11:30 (BH)

10:45 11:00	Professor Vivienne Chuter (13) University of Newcastle	Michaela Watts (18) National Association of Diabetes Centres
11:00 11:15	Annie Walsh (14) Liverpool Hospital High Risk Foot Service	Dr Namson Lau (19) Ingham Institute of Applied Medical Research
11:15 11:30	Amelia Tobias (15) National Referral Hospital Solomon Islands	Tracey Lyon (20) Queensland University of Technology
11:30 11:45	Alex Barwick (16) University of Newcastle	Julia Yuncken (21) Monash University
11:45 12:00	Peta Tehan (17) University of Newcastle	Emma Macdonald (22) La Trobe Rural Health School

Overcoming Barriers: A practical approach to the implementation of best practice offloading with Ian Reid

WORKSHOP 11:35 - 12:00 (BH)

Implementing collection of NADC HRFS Minimum Data into our Clinics with Dr Joel Lasschuit

12:00 13:00 LUNCH, POSTERS & EXHIBITION (HHE)

WORKSHOPS

THE INFECTION (HHW)

THE PERFUSION (RSW)

THE ULCER (BH)

THE PRESSURE (RSE)

13:00 14:30	When is enough - enough! Join Professor Larry Lavery, Professor Eric Senneville, Dr Sarah Coghill and Dr Matt Malone for an interactive workshop focused on infection case studies and discussion.	Interpreting vascular investigations from a multi-disciplinary perspective. Join Professor Rob Fitridge and Dr Beatrice Kuang for an interactive workshop with case studies and discussion.	How would you manage that difficult wound? Join Professor Fran Game and Dr Pete Lazzarini for an interactive workshop with case studies and discussion.	How would you offload that? Join A/Professor Jaap van Netten and A/Professor Karl Heinz Schott for the latest in 3D scanning offloading technology, case studies and discussion.
-------------	--	---	---	--

14:30 15:00 AFTERNOON TEA & EXHIBITION (HHE)

THE PRESSURE Conservative and surgical offloading (HHW)

15:00 15:20 **Dr Pete Lazzarini (Australia)**
New global offloading guidelines: How should we be offloading foot ulcers now?

15:20 15:50 **Professor Larry Lavery (USA)**
How should we surgically offload foot ulcers in the near future?

15:50 16:10 **Associate Professor Jaap van Netten (Netherlands)**
How will we conservatively offload foot ulcers in the near future?

16:10 16:25 **Panel discussion with interactive Q&A**

16:25 16:35 Awards and Conference close (HHW)

08-10 September
Howard Smith Wharves
BRISBANE

OFFICIAL
PROGRAM

MONDAY 09 SEPTEMBER

ABSTRACT SESSION 1

Professor Larry Lavery (1)
University of Texas South Western Medical Centre

The infected diabetic foot: Incidence and recovery of acute kidney injury in patients with and without diabetes.

Saskia Schwarzer (2)
South West Sydney Limb Preservation Research

Analysis of proximal "clean" bone margins in diabetic foot osteomyelitis by conventional culture, DNA sequencing and microscopy.

Brian Martin (3)
Nepean Hospital

Management of diabetic foot osteomyelitis with interosseous drilling and biphasic antibiotic impregnated bone graft substitute. Techniques and early results.

Adriaan Erasmus (4)
Liverpool Hospital High Risk Foot Service

A Prospective Audit of the Antibiotic Management of Patients with Diabetic Foot Infections in a High-Risk Foot Service.

Peter Speck (5)
Flinders University

Efficacy of Phage AB-SA01 Therapy in Diabetic Mice Skin Wound Infections caused by Methicillin Resistant Staphylococcus aureus (MRSA).

Michael Radzieta (6)
Western Sydney University

Why do some patients with Diabetic Foot Ulcers develop infection? Analysis of the Microbiome between infected and non-infected DFUs.

ABSTRACT SESSION 2

Damien Clark (7)
Queensland University of Technology & MNHHS

Using Foot Selfies to Promote Diabetic Foot Ulcer Self-Care: Emerging Findings from the MyFootCare App Field Study.

Christopher Si (8)
Royal Perth Hospital

Clinical outcomes following transmetatarsal amputation in patients with diabetic foot disease.

Julia Zhu (9)
National Healthcare Group Polyclinics Singapore
Donna Angel - Christopher Si presenting (10)
Royal Perth Hospital

Characteristics of diabetic foot ulcers and predictive factors of healing in primary care.

Yuqi Zhang (11)
Queensland University of Technology

Lessons learnt using Integra® dermal replacement in high-risk foot and complex lower leg wounds.

Professor Larry Lavery (12)
University of Texas South Western Medical Centre

Epidemiology of diabetes-related foot disease and amputation in Australia: a systematic review.

Does Negative Pressure Wound Therapy with irrigation improve clinical outcomes? A randomized clinical trial in patients with diabetic foot infections.

TUESDAY 10 SEPTEMBER

ABSTRACT SESSION 3

Professor Vivienne Chuter (13)
University of Newcastle

Foot type, joint range of motion and plantar pressures in community dwelling adults with type 2 diabetes.

Annie Walsh (14)
Liverpool Hospital High Risk Foot Service

A referral pathway for patients attending the emergency department with an acute high risk foot pathology.

Amelia Tobias (15)
National Referral Hospital Solomon Islands

The effectiveness of a low cost and modified Total Contact Cast Technique to control infection and treat DFU in isolated indigenous communities to prevent late presentation and amputation: Experience from The Solomon Islands.

Alex Barwick (16)
University of Newcastle

Diagnostic Accuracy of the Postexercise Ankle-Brachial Index for Detecting Peripheral Arterial Disease in Diabetes.

Peta Tehan (17)
University of Newcastle

How sensitive and specific is continuous wave Doppler for detecting peripheral arterial disease in people with and without diabetes? A cross-sectional study.

ABSTRACT SESSION 4

Michaela Watts (18)
National Association of Diabetes Centres

National Associations of Diabetes Centres (NADC) Collaborative Interdisciplinary Diabetes High Risk Foot Services Standards and Accreditation Pilot Program.

Dr Namson Lau (19)
Ingham Institute of Applied Medical Research

Acute diabetic Charcot Neuroarthropathy: six months of measured quality of life.

Tracey Lyon (20)
Queensland University of Technology

A systematic review of motivational interviewing training outcomes for health practitioners treating persons with diabetes.

Julia Yuncken (21)
Monash University

Diabetes education retention: A Systematic Review.

Emma Macdonald (22)
La Trobe Rural Health School

Smart insole adoption intentions in podiatrists who treat people with diabetes. A mixed methods study.
